

Greetings Trailblazers,

Another great weekend and successful event. The weather was exceptional, the river was running swift and smooth, with food and drink aplenty. This was the fullest I have ever seen that campground, between our two groups and everyone else. Some of the activities that people enjoyed were the cliff jumping, the exploration of Boy Scout canyon, T-Time (I heard quite a few made it across this year), and of course the daylong, never ending water fights. I want to thank everyone for doing their part and more, this trip relies heavily on everyone pitching in and helping out would not be such a success without it.

There are only two events left for us this year. The first one is being combined with the Guides & Princesses and is a family event. We are headed out to Lancaster to watch a Lancaster Jet Hawks baseball game. This is on Saturday May 10th starting at 7:15PM. You must call Josie right away as she has a book of tickets that will sell out fast. The tickets are just \$6.00 apiece. I hear these games are a blast to attend as they often have between inning events to keep the crowd going.

The last event of the year, the white water rafting trip, is from June 20 to June 22. This is on the Kern River right above Lake Isabella. This is a family event, and the graduating Guides and Princesses are invited too to get a taste of Trailblazer fun.

Look for more information on the upcoming events in this and future Blazing Newsletters.
